SUMMARY

Babkina M.I. The forming of active civic position of teenagers in the extra-curriculum education activity in secondary school. - Manuscript.

The dissertation is on reception of a scientific degree of the candidate of pedagogical sciences by speciality 13.00.07. - Theory and methods of education - The Institute of Problems of Education of Academy of Pedagogical Sciences of Ukraine, Kyiv, 2009.

The problem of content, pedagogical means and conditions of forming of active civic position of teenagers in the extra-curriculum education activity is investigated in this dissertation.

In the dissertation research the philosophical-culturological and psychological-pedagogical aspects of the problem are discovered; the age peculiarities, the contradictions of inner position and psychological appropriatenesses of teenager's development are defined; the criteria and levels for forming of civic position are determined; the structure of active civic positions forming is developed; the mutually concordance and coordination of actions of agents and factors of social influence on the development of civic qualities and formation of teenagers civic position are revealed; the social activity of teenagers in the extra-curriculum education work via the involving them in the projecting activity is underlined.

On the ground of pedagogical observation the social-pedagogical conditions of active civic position forming of teenagers are based and checked by means of experiments. The methodical recommendations referred to their practical application in the extra-curriculum educational activity in the secondary school are developed as well.

Key words: civic education, active civic position, civic qualities, social-pedagogical conditions, social influence, extra-curriculum education activity, projecting activity, teenager.
