

Activity 1 – My Tree

1) Select a tree:

- Close to your school or home, so that you can observe it often
- One of the 7 species of the campaign
- With at least one branch that is positioned low so that you can observe the buds closely.
- The tree should not be shaded by a building (ideally the tree-building distance is more than the height of the building)

2) Describe the tree and the site where it grows:

- Take GPS coordinates and write down altitude as well
- Find out what is the Latin name of the tree species (e.g. *Corylus avellana* for hazel)
- Name the tree (e.g. Hazel 1)

3) Take picture(s) of the tree using GrowApp.

- The use of GrowApp is very easy and intuitive. See the [manual](#) on the GLOBE website.
- Share your picture at the [Discussion forum](#).

The activity should be completed by March 15th.

- ① To earn a Collaboration badge, share a picture of your tree without leaves.
